

High performance. Delivered.

Accenture  
Consulting Careers  
in Health & Public  
Service

Grow your career transforming Health & Public Service clients.

**Darren Price**

My name is Darren, and I'm inspired my clients.

I'm very interested in client service and customer service, and a career at Accenture has given me the ability to explore that.

**Erica Powell**

I'm Erica and I'm inspired by innovation.

Accenture is cutting edge and the tools and resources that we have at our fingertips to be able to connect across the globe is, is just phenomenal.

**Jimmy Denny**

Hi I'm Jimmy. I'm inspired by working side by side with the client.

We can shape the future, so you can experience a lot of different industries.

If you can't find what you want to do here, it probably doesn't exist because we work with everybody.

**Erica Powell**

Accenture affords you that ability to learn as you go and grow on the job.

Constantly looking at what is changing, listening to the clients and what their needs are and then being able to then put that in practice. That is what drives me every day.

**Darren Price**

Transformational thinking meets transformational doing. It's being able to bring the knowledge as well as bring the people and the know-how to be able to actually get it done, and Accenture has the ability to do both.

**Jimmy Denny**

We were at a small regional hospital that was really in some trouble.

We were able to go in there to change everything from how patients access the care, the clinical case management in the hospital itself, how physicians are compensated. At the end of the day if we do a really good job, that's going to positively impact a patient's life.

**Jimmy Denny**

Accenture is innovative.

**Erica Powell**

Accenture is transformational.

**Darren Price**

Accenture is a global powerhouse.

**Darren Price**

The type of people we look for within the Health and Public Service operating group are smart people, driven people, and people that have an overwhelming desire to help our clients solve their most challenging problems.

**Erica Powell**

If an individual is ready for that then they're more than welcome to come work alongside us at Accenture.
