

INNOVATION

IN SOPHIA ANTIPOLIS

Digital is transforming the world. At Accenture, we innovate with companies to help shape the future.

The Sophia Antipolis Technology labs, located in one of the world's largest science parks in the South of France, focuses on discovering and developing leading-edge solutions that address companies' business and technology needs, and help them become digital businesses, disrupting and transforming their markets.

Connected to Accenture's global innovation center network, it offers cross-industry immersive environments and experiences for businesses of all shapes and sizes.

We co-innovate with companies, starting with the customer experience through tailored workshops and brainstorming sessions we explore new horizons with our clients.

And our team of experts translate revolutionary ideas into pragmatic solutions and tangible business opportunities, from social, big data and digital customer to biometrics, wearables, artificial intelligence (AI), blockchain and the Internet of Things (IoT).

Our teams continuously monitor emerging trends and technologies with a five-year outlook. And through Accenture Open Innovation, we team with the best emerging concepts and technologies from R&D

partners including established players, start-ups, studios and academia. We use pioneering environment to shake up fixed thinking and push boundaries.

At the Sophia Antipolis Technology labs, we can help you incubate a brand-new world. Are you ready to come and visit us?
