High performance. Delivered.

# IT-OT Integration Solution by Accenture and SAP for Utilities

## Video Transcript

### The need?

Create value by building the foundations of the digital utility.

### The path?

- Bring together the data and information from operations and enterprise system.
- Create a single, robust platform with the advanced analytic capabilities to support new business models.

- And generate decisive and powerful new insights and capabilities.

### The solution?

IT-OT Integration Solution by Accenture and SAP for Utilities.

A new joint solution that gathers and analyses - in one place - the vast amounts of data generated across operational and enterprise assets and systems.

- Working with industry leading utilities
- combining the in-memory power of SAP HANA with Accenture's expertise
- proven delivery capabilities
- road-tested assets
- and critical analytics applications.

The IT-OT Integration Solution for Utilities addresses the many challenges asset-intensive organizations face today.

### **Asset Health: An IT-OT Integration Solution by Accenture and SAP**

By integrating enterprise financial data and operational data powered by advanced predictive analytics, utilities can:

- Improve response time and decision-making
- Improve asset and system reliability with clearer situational awareness.
- Decrease costs
- Speed-up response times to outages and severe weather events
- And optimize regulatory interactions

Asset Health is Cloud-Ready. The Benefits?

- Offers flexibility and agility
- Enables rapid deployment
- And it accelerates time to ROI.
