

MEET CAPABILITY NETWORK AT ACCENTURE POLAND

VIDEO TRANSCRIPT

What is Capability Network at Accenture? We hear that question a lot.

It is a change. For our clients. And for every person in the world. Yes, we work on a global scale.

It is knowledge. We share it, we gain it. We own it. We know today what you will learn tomorrow. This is our strength and it can be yours too.

It means internationality. Yesterday Warsaw, today Paris, tomorrow London. We work for every location in the world.

It is expertise. From finance to the automotive industry. From telecommunications to supply chain management. From chemicals consulting to talent & organization services. Our teams are highly specialized in what they do on a daily basis. And that's what makes them the best on the market.

Why am I telling you about this? Because this could be your future. Because today you can change something in your life and take your career to a higher level. What we do today may be yours tomorrow. Join us and find out about it from the very first day of your work.

I am Gosia Nasiłowska, Managing Director of Accenture Capability Network. I am here to encourage you to become part of our team. Let there be change. In your and our lives.
