

GSA ALLIANT 2

Contract Number
47QTCK18D0036

Contract Overview

Alliant 2 is a multiple-award, indefinite delivery, indefinite quantity (IDIQ) government wide acquisition contract (GWAC) for information technology (IT) services and solutions. Sponsored by the US General Services Administration (GSA), it offers a 10-year period of performance and enables pre-qualified contractors to deliver comprehensive information technology solutions. The scope of services includes any and all components of an IT solution, including all current and any new technologies that might emerge (and require integration) during the life cycle of the contract, and IT systems and services in support of national security systems. Its alignment with the Federal enterprise architecture (FEA) and Department of Defense enterprise architecture (DoDEA) provides a common framework and terminology for defining and understanding the components of an IT solution. The alignment enables the vehicle to evolve over time as technologies change without requiring a technical refresh. It also conforms to the Office of Management and Budget (OMB) policy mandate for reporting on IT investments.

Key Features and Benefits

- Available to all Federal agencies worldwide
- 10 Year period of performance is a 5 multiyear base term through June 30, 2023 plus a 5 multiyear option period through June 30, 2028
- A robust scope aligned with the Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DoDEA);
- Access to a full range of comprehensive IT services and IT services-based solutions;
- Flexibility as emerging technologies and the definition of information technology evolve;
- Ancillary support (non-IT) permitted when it is integral to, and necessary for, the IT services-based outcome;
- A full spectrum of contract types, including cost reimbursement;
- \$50B contract ceiling
- Complimentary scope-compatibility reviews
- Acquisition Templates and the capability to search for sample Statements of Work (SOWs) to be available on the Acquisition Gateway.
