

JOIN US AT IUEC 2020

VIDEO TRANSCRIPT

INTERNATIONAL UTILITIES AND ENERGY CONFERENCE

Hi, I'm Casey Wells, Global Industry Managing Director for Accenture's Utilities practice and I would like you to join me for two days in Rome next year at Accenture's International Utilities and Energy Conference, IUEC for short.

On March 31st and April 1st, 2020 some of the world's greatest thinkers and innovators will come together in Rome to share their insights with Utilities executives from around the globe, yourself included.

IUEC is dedicated to examining key opportunities for electric, oil, gas and water companies in today's evolving energy transition and our goal is to challenge and inspire the executive delegates to make breakthrough innovations to help them improve traditional practices and lead their companies in pursuit of imaginative approaches to doing business in the future.

It's not just a conference, it's a holistic experience. Since its inception, 30 years ago, IUEC has become uniquely recognized for the high quality of its program and is globally viewed as one of the foremost events of the year for board-level executives in the energy and utilities sectors. IUEC offers a unique environment for learning and relationship-building where you can:

- Learn more about strategic and workable insights on challenges and opportunities related to the world's energy transition
- Hear from thought-provoking and forward-looking speakers, sharing global and local industry perspectives
- Fuel your innovation engine by visiting the Innovation Showcase
- Take part in our "Women in Leadership" program
- Strengthen your business relationships by meeting with executives facing similar business challenges via networking sessions or peer-to-peer meetings

More details are on this website, but please feel free to reach out to our IUEC team at any time for more information. I hope you'll be inspired to join us for this exciting event and very much look forward to seeing you in Rome.
