Fuels & Convenience Retail - For Essential Workers - We are Essential
In March 2020, COVID-19 brought the world to a standstill.

Everything changed

Our habits
166% surge in sales of men’s hair clippers

Our spending
370% increase in curbside delivery and grocery pickup

Our living
200% increase in pet adoptions

And though the world may have shut down

The fuels and convenience retail industry held strong

We’re helping our heroes get from point A to point B

For essential workers…
We are essential.

Together, we will define what’s next

With the right thinking.

The right solutions

We’ll make it through the headwinds.

Together, we can do our part to respond.

By listening

By innovating

By leading

Are you ready?

Accenture
Let there be change
