

Migrate, modernize, and optimize on AWS – with confidence. Now.

It's in our nature to migrate

To move to where the grass is greener,

Where there are more resources

And more opportunity.

If uncertainty,

Outdated equipment

And ever-increasing costs

Are making it difficult to stay competitive

Accenture and AWS can help you migrate

And innovate to exhilarating horizons,

wherever you are on your cloud journey.

Accenture analysis shows that cloud-focused companies can grow two to three times faster

and With AWS and Accenture's capabilities and accelerators,

you're covering more ground,

Unlocking value

And creating the foundation for digital transformation.

Launching new products and services – even faster

Building on success

And quickly adapting to change.

Discover new ways of working,

Unleash new opportunities,

And be ready for constant growth,

All with a cloud partner you can trust.

For the state of California, we moved three large and complex legacy systems into a single, state-wide, cloud-based AWS application...

Reducing risks, driving down costs and creating one efficient team.

We helped MONETA Money Bank transition to a new, secure, cloud-based infrastructure

Infused with agility and responsiveness, laying the groundwork for continued growth.

And we are working with Takeda, a global, values-based, R&D-driven biopharmaceutical leader,
To migrate 80% of their applications to the cloud
In order to discover and deliver life-transforming treatments through the power of data and digital.
Get ready to migrate, innovate and revolutionize your business
Move with Accenture and AWS – with confidence. Now.
