

OT CYBER FUSION CENTER EXPERIENCE

VIDEO TRANSCRIPT

Powered by Accenture

We invite you to step into the Accenture OT Cyber Fusion Center located in Houston, Texas.

Critical infrastructure organizations around the world use this facility to strengthen their OT operations. The center is equipped with specific industry endpoints and devices and leading cybersecurity tools your team can use to evaluate vendor products, exercise processes, and enhance IT/OT skills. All without compromising your live systems.

How might your team use our state-of-the-art OT Cyber Fusion Center to build resilience and ready your defenses? I challenge you to think about a pressing OT security concern in your organization and let us collaborate with you to solve it.
