THE ALAN TURING INSTITUTE
VIDEO TRANSCRIPT

What is the Alan Turing Institute?

We are the national institute for data science and artificial intelligence.

We tackle some of the biggest challenges in science, society, and the economy.

We are a hub for collaborative research across disciplines and locations.

We work at the cutting edge of science.

We apply research to real world problems, with lasting effects for science and society.

We are a place to engage, discuss and discover new ideas.

We train the next generation of data science and artificial intelligence leaders.

The Alan Turing Institute.
