

UNFOLDING THE NEXT GROWTH CHAPTER IN THE MIDDLE EAST

VIDEO TRANSCRIPT

A major transformation is unfolding across the Middle East

Enterprises are ramping up investment in next generation networks and digital technologies

But next generation networks such as 5G will not create business revolution on their own

End-to-end digital transformation will be made possible by the convergency of 5G and key technologies

Cloud

Edge computing

Artificial intelligence

Internet of things

But enterprises must overcome barriers to unlock value

Meet the Tech Leaders

The companies unlocking the convergent power of next-generation networks and digital technologies

...are set to deliver more value than their peers in the next 3 years.

Discover their winning ways.
