

# ACCENTURE AND SAP - INTELLIGENT ASSET MANAGEMENT

## VIDEO TRANSCRIPT

Intelligence is  
reimagining how things are made.  
Intelligence is...  
Solving old problems with new insights  
Connecting processes, people and assets  
Enabling greater control and improved asset  
performance  
To reimagine asset management  
across the enterprise  
and business models.  
So we can shape a future that's  
Smarter  
Safer  
Sustainable.  
Accenture combines data and digital with SAP's  
Intelligent Asset Management  
to reinvent the art of the possible in operations  
to accelerate the path to intelligent assets  
and redefine growth through the lens of  
sustainability.  
Count on intelligence  
to reach the next digital frontier.
