## VIDEO TRANSCRIPT

0:02

Welcome

0:03

to Accenture, 5G and Cloud Network Studios.

0:06

Where we use Industry, Cloud,

0:09

5G, Edge Computing and Network Assets and accelerators,

0:14

to identify the art of the possible.

0:20

We tackle real time

0:21

business problems by experimenting and creating network solutions

0:25

that scale across the enterprise and communications service providers.

0:30

Strategically located around the globe and connected over one network,

0:34

you can visit them in person or in the metaverse.

0:38

We will work with you to enable the network journey to cloud

0:42

for communication service providers and enterprises.

0:45

Accelerate 5G Edge Solutions

0:48

and design private industry networks, whether it's working with communications

0:53

service providers to maximize value from their investment in 5G

0:57

and other advanced network technologies or testing new use cases such

1:02

as smart mirrors for retail, healthcare delivered onsite and at the edge

1:07

or sports venues augmented through 5G edge and video analytics.

1:12

Work with us to conceptualize, engineer and build the network of the future.

1:16

With leading ecosystem partners, reinvent products and services, and use technology

1:23

to revolutionize and transform the way the world lives works and plays.

1:28

No matter where you are on your digital transformation journey.
