## VIDEO TRANSCRIPT

**Speaker 1:** This place. The wire cars. The way we drive on the roads. It makes me feel as if everything is real. When I push it around, it feels like I am behind the steering wheel, driving. And it actually drives nicely.

**Speaker 2:** There is imagination with the wire car. You imagine yourself sitting in a real car that you have to control.

**Speaker 3:** If they see my talent they will then also see me...and we want to be seen.

**Speaker 4:** Six times I've been a champion. I really felt like a superhero. Like I was famous. I really felt like I was famous.

**Speaker 5:** Because the wire car must be light. Because as soon as they say go it's go time.

**Speaker 6:** My competition, I think, is Rivano. Yes, because he is faster than the others.

**Speaker 7:** Pockles, Pockles! He's fast, Pockles. He's not that fast.

**Speaker 8:** The wire car is more than a game for me because I want to change my future one day. It will be a special day. And a happy one. Because it's on Saturday.
