Amplifying Innovation in the Metaverse - SAP Supply Chain Mission Control Experience

Andreas J. Wagner (SAP)
Kerstin Stapelmann / Phillip Jorgensen (Accenture)

November 10, 2022

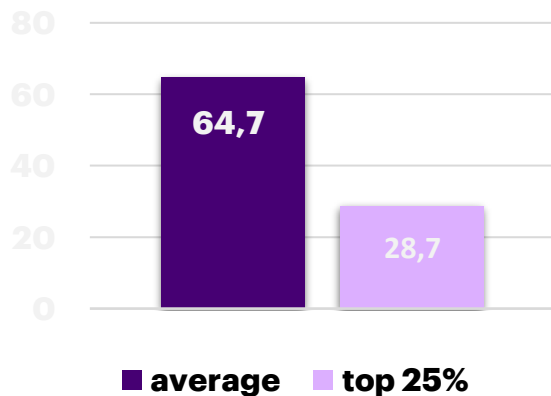

It's time to build future-ready Supply Chain Networks

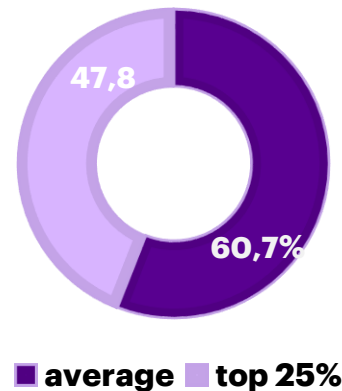

accenture

Can Innovation and Digitalization save your Supply Chain KPIs?

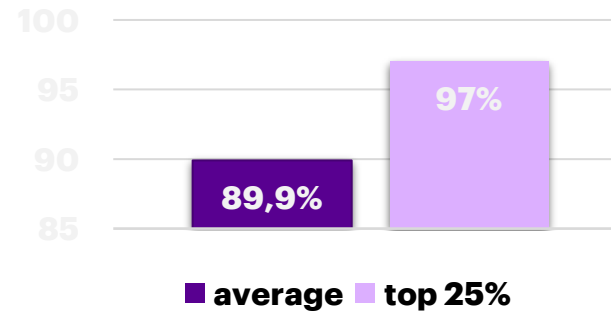

KPI – Days in inventory

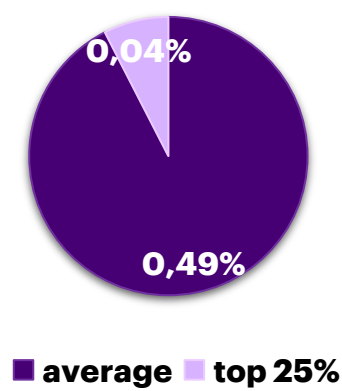

KPI – Cost of Goods Sold (%)

KPI – On-time delivery performance (%)

KPI - Revenue Loss (%)

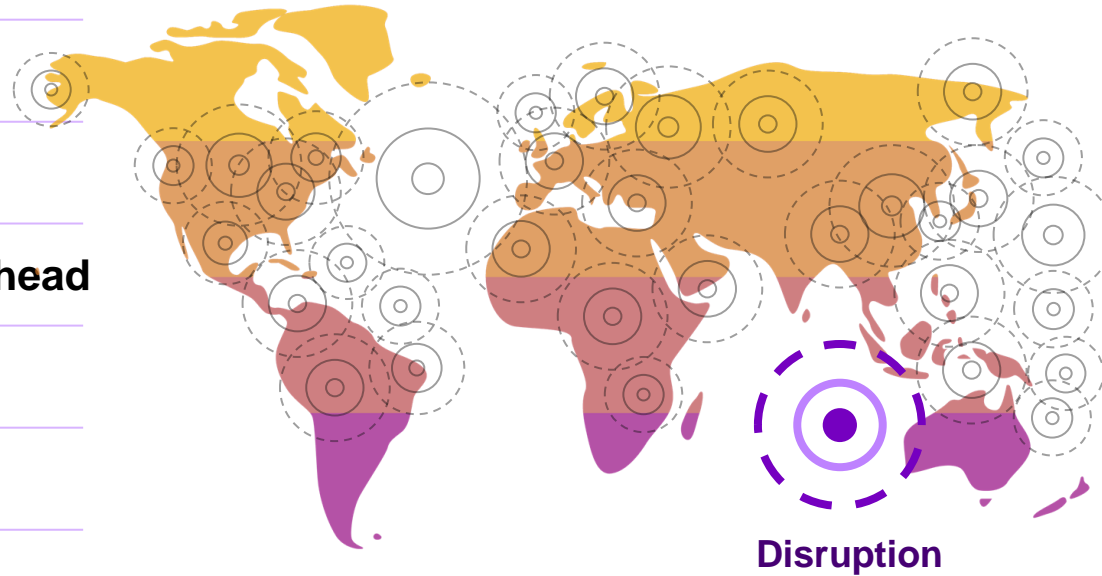

YES! Digitalize & Innovate your supply chain to fortify your business!

Handle disruptions better, faster, with less complexity and at a lower cost

Reactive:

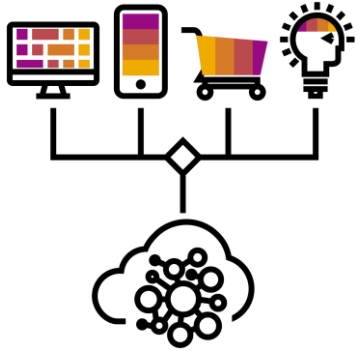

- X Insufficient design insights
- X Restricted suppliers
- X Increased manufacturing overhead
- X Excessive safety stock
- X As-required maintenance
- X Ad-hoc service providers

Resilient:

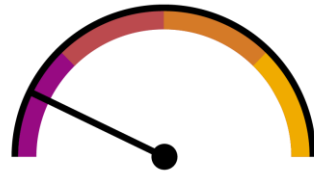

- Collaborative design ✓
- Balanced suppliers ✓
- Manufacturing automation ✓
- Optimized inventory ✓
- Predictive maintenance ✓
- Verified service networks ✓

Let's **SUPPLY CHANGE NOW** to enable resilient, customer centric, and sustainable enterprises

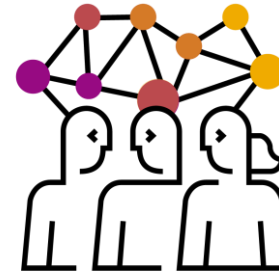

Agility

with synchronized planning and execution

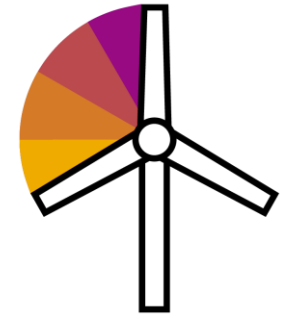

Productivity

re-invent production, logistics, and services

Connectivity

unified, collaborative trading partner relationships

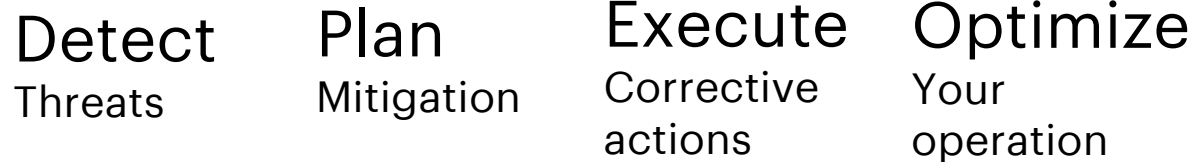

Sustainability

actively manage environmental and community impact

The Resilient Supply Chain

Straightening the value chain accelerating innovation the Supply Chain Mission Control built in the SAP Cloud Platform gives unprecedented insight over the value chain end-to-end.

Born from innovation and built to solve strategic **business needs** it delivers the foundation for the Supply Change.

SAP IBP SAP IAM SAP Analytics Cloud S/4 HANA **combined with** Dig. Twin AI Next Gen UI Predictive Analytics

-  Three-Level SC Digital Twin
-  Global SC visibility in single spot
-  SC Contextual Insights
-  Detect disruptions before it happens
-  Pioneer user interface built on React on UI5
-  AI powered SC disruption prediction
-  Full visibility of cash forecast and at hand
-  SC Circularity index for Sustainable SC

Thank You
