

# ACCELERATE SUSTAINABILITY TRANSFORMATION WITH SOLUTIONS FROM ACCENTURE, AVANADE, AND MICROSOFT

## VIDEO TRANSCRIPT

Climate change is a driver for critical enterprise innovation as companies step up to lead with purpose, increase resilience, and seize the incredible growth opportunities sustainability presents.

By leveraging the digital innovation of Microsoft, coupled with Accenture and Avanade industry expertise, our joint sustainability solutions lend a helping hand to solving today's most pressing business challenges.

Together, we can help you create unprecedented transparency and accountability through real-time reporting and analytics, underpinned by AI, data, and industry cloud platforms.

Our ambition is to rethink cross-industry value chains, starting with the energy transition and digital operations, helping you protect and grow your business, and hold true to your sustainability commitments.

Leading with purpose matters to your employees, to your stakeholders, to our environmental future, and to us.

See how we can accelerate your sustainability journey today.
