

# WOMEN IN TECH: MEET RUTH

## VIDEO TRANSCRIPT

I love this company. It has been a life-changing experience for me, especially coming from a first-generation American.

My mother immigrated from Mexico and so she has always motivated me to do more, to do my best.

I actually just got promoted. I am very ambitious, I'm going to be honest with you. I am a person that just loves challenges and loves to say, "Okay, what is the next role? What is the next step that I need to do?"

I have a group of board of directors. Within that group, I have my mentors. coaches. They really inspired me to navigate through my career, because remember, all this is very new to me.

I don't have a family background in anybody in the corporate space. I would say that a lot of my biggest accomplishments would be embracing our community. I always told myself that the day that I become established in the company is the day that I will always look back and reach out to the community because they need to hear it. Growing up, I didn't have that opportunity, so I want to make sure that I'm yelling from the top of my lungs that you belong here.
