

SANDY CLARKE ON HEALTHCARE SOLUTIONS

VIDEO TRANSCRIPT

0:05

So in interventions that matter, you think about how many touch points there are in a care journey and all of the data that's collected through those interactions.

0:19

We are looking at harnessing that data to make sure that we are driving the biggest impact during those interventions or conversations to help patients maximize the healthcare that they're receiving at their fingertips.

0:36

So whether it's a diabetes journey or any type of healthcare journey, making sure that it's customized and tailored using the data of that specific person.

0:48

And our second offering, data fabric for secondary use, you think about when folks have handoff between different types of providers and how do we ensure that we have the patient at the center of everything that we're doing.

1:02

And making sure that the handoffs between the different providers or even the pharmacy is managed and the handoff is successful so that things are done to help facilitate people's health and wellbeing more effectively.
