

# TECH VISION 2023: WHEN ATOMS MEET BITS

## VIDEO TRANSCRIPT

As the atoms and bits of the physical and digital worlds meet they form the foundations of a new, shared reality

where everyone and everything | will have a **Digital ID** where data transparency | is a precious resource where **Generalizing AI** | creates new opportunities and where science and tech | accelerate **our forever frontier**

These are the trends | shaping the next decade.  
Tech Vision 2023
