

Work at the heart of change

Andra – Digital Manufacturing &

Operations: If I had to describe Accenture in a few words, those will be diversity, new cultures, and collaboration.

Vali – Custom App Engineering: In Accenture, we all work at the heart of change. And when we match our ingenuity with the latest technology, we make incredible things.

Anca – Intelligent Shared Services: Driving and embracing change with confidence, as a permanent way of moving forward, helped me create a meaningful and stable career in a strong environment. Here all our great achievements are nothing but a shared success. We know we are stronger together.

Andra: Whether we are creating value for our clients or our community, people always bring their best self forward.

Robert – Digital Manufacturing & Operations: At Industry X, we commit to lead the next wave of transformation for our clients, shifting to more

responsible and more sustainable businesses.

Flori – Finance & Accounting: Operations means rethinking the way people work. It's all about unleashing human ingenuity, so we invest our energy into more than just repetitive tasks.

Dragos – Cloud Engineering: At Accenture, we have one of the world's strongest cloud professional networks, working together to harness change in a powerful and meaningful way. We develop cloud software solutions from all main cloud providers to ensure we deliver the best outcomes for our clients.

Anca: In other words, you unleash your full potential and build amazing things.

Andra: In the end it's all about who and what you want to be because the opportunities and your team will always be there.

Robert: This is what it's like to work at the heart of change.

Work at the heart of change!
