Total Enterprise Reinvention isn’t a to do. It’s a to be.

Total Enterprise Reinvention is a deliberate strategy that aims to set a new performance frontier for companies and in most cases, the industries in which they operate. Centered around a strong digital core, it helps drive growth and optimize operations.

Who are the Reinventors?

A handful of companies are quietly and systematically changing the game and their industries.

Reinventors exhibit all 6 characteristics of Total Enterprise Reinvention:

1. Reinvention is the strategy. It is no longer an execution lever.
2. The digital core becomes a primary source of competitive advantage. It leverages the power of cloud, data and AI through an interoperable set of systems across the enterprise that allows for rapid development of new capabilities.
3. Reinvention goes beyond benchmarks, embracing the art of the possible. Technology and new ways of working create a new performance frontier.
4. Talent strategy and people impact are central to reinvention, not an afterthought. These companies consider change management a core competency.
5. Reinvention is boundaryless and breaks down organizational silos. It tackles capabilities end-to-end.
6. Reinvention is continuous. It is no longer a time-defined one-off, but a capability continuously tapped by the organization.
