VIDEO TRANSCRIPT

Brandon Johnson [00:00:00] Hello, Brandon Johnson here at CloudWorld. I'm excited to say it's been a marvelous event. I run our Oracle West Market Unit for Oracle for Accenture. Brought 60 some clients to this event. It's been just jam packed with exciting client stories, client questions, you know, looking at Oracle in terms of what their vision or roadmap is and got off the stage with Uber Freight where we just launched our go to market for Uber Freight's API, it's kind of revolutionized Uber freight in the industry, it's going to be a game changer. So just very excited what we're doing here at CloudWorld. Take a look. You know, go, go look at some of our videos, some of our client testimonies and reach out if you have any questions. So, again, thank you very much.
