

MEET OUR PEOPLE - CIARA

VIDEO TRANSCRIPT

0:05
I work on a team
0:07
of researchers and
0:09
they can have this amazing work but it
0:11
can be hidden
0:12
in essentially what ends up being like a
0:14
pdf just full of text or like an essay.
0:17
so that's usually the point i come in at
0:19
and try and take it into some sort of
0:22
visual the outcome can be so varied but
0:23
like just make their text and their like
0:26
all their research work as engaging as
0:28
possible uh
0:30
pretty much that.
0:34
Some of the work i've been doing for the
0:36
team it looks like a little bit like my
0:38
freelance work and
0:40
it's a nice way that they've made
0:41
because that's something that i'm like
0:43
very experienced in that style and

0:45
i just never ever never would have
0:47
expected that to come into
0:49
the range of skills is definitely what's
0:50
been the most interesting thing
0:52
about joining this team there's
0:54
people with various phds and just
0:57
experts in areas i haven't even
0:59
heard of, like with a digital
1:00
anthropologist which i think is just
1:02
such a cool profession such a cool
1:04
title
1:06
and yet they're all just really really
1:07
passionate about what they do
1:10
