

# MEET OUR PEOPLE - KEN

## VIDEO TRANSCRIPT

0:06  
You know I myself am an engineer, i  
0:08  
work with guys who are in finance, i work  
0:10  
with people who come from, you know, a  
0:11  
purely business background while others  
0:13  
come from marketing, and that's  
0:15  
absolutely awesome, because we get to  
0:17  
share those different  
0:18  
perspectives of the world, different ways  
0:20  
of seeing things, different ways of  
0:22  
creating and  
0:24  
it's actually quite incredible how much  
0:26  
you learn from others who just don't see  
0:28  
the world the same way as you, and  
0:30  
that's probably the thing that  
0:32  
not only excites me but really builds up  
0:35  
our different solutions in a much better  
0:38  
Way.  
0:39  
There is no better place on earth to  
0:41  
innovate than right here at the dock in

0:43  
dublin and that's what excited me and i  
0:45  
just knew i had to be here i had to be  
0:48  
where the innovation and the exciting  
0:50  
technology was and that brought me here  
0:53  
[Music]
