

# ACCENTURE INDUSTRY X

## VIDEO TRANSCRIPT

### Speaker 1 – Tamás

I think that it is really important to choose an internship where you can develop both professionally and personally.

### Speaker 2 – Irem

Everybody knows about Accenture, It is a very good company they have a lot to give.

### Speaker 1 – Tamás

Was worried that I was going to be the biggest failure in the history of this company. but I managed to do all the stuff that they required from me.

### Speaker 3 – Alexa

So I believe they really needed some wine in the process.

### Speaker 1 – Tamás

What I didn't like in this internship? So first things first, No no no no no no! This question wasn't approved!

I really liked the experience of what it's like to work in the real world.

### Speaker 3 – Alexa

What I enjoyed being a mentor is the connections I have with the people I work with.

### Speaker 2 – Irem

The best advice is to ask questions, as many as they can. They have to steal any information they can.

### Speaker 1 – Tamás

Be brave. Because it's to do programming, to write in code, which I think is really important, because this way, you can enjoy working. And if it's working, it's not technically working, because you're doing something you really like and you can actually make a shitload of money doing this.

### Speaker 3 – Alexa

I really loved to see them develop, grow, gain courage from this, and spread their wings, maybe? And try to get things going on.
