# Performance data table

The following table quantifies our progress since fiscal 2021 on key non-financial indicators. Unless specified, all metrics are global in scope, reported on a fiscal year basis, consistent with previously reported figures and cover those of our consolidated entities. All data are consolidated from performance management systems across multiple Accenture teams and vetted through an internal controls process, which includes senior leadership, to confirm they provide an accurate representation of Accenture's non-financial performance.

<b>Accenture at a Glance</b>	<b>FY23</b>	<b>FY22</b>	<b>FY21</b>
	US\$ billions		
Revenues	\$64.1	\$61.6	\$50.5
Operating Expenses	\$55.3	\$52.2	\$42.9

#### Footnotes

- In fiscal 2023, we elected to present Fuel and Energy Related Activities as part of our reported carbon emissions and enhanced our methodology for calculating Scope 3 emissions to include well-to-tank emissions for personal car travel and taxi under Business Travel and Employee Commuting. Prior periods have been revised to reflect these changes. Emissions related to Office Electricity reflect a market-based accounting approach which includes the impact of renewable electricity contracts and residual mix factors.
- In fiscal 2023, we changed the presentation for Scope 3 emissions to separately report emissions from Capital Goods, which were previously included in Purchased Goods & Services. Prior periods have been revised to reflect this change.
- Electronic waste (e-waste) includes computers, servers and uninterruptible power supply devices and excludes Avanade, a joint venture between Accenture and Microsoft that is majority-owned by Accenture.
