

BE YOURSELF. MAKE A DIFFERENCE

VIDEO TRANSCRIPT

PRAVEEN WEB DEVELOPER

Most of the work is based on Web Development. From my young age I have been a web developer. My passion is fully on web development and that has become my career.

Caption: Project Variety

I have to keep on updating my skills.

Caption: State of the art training facility

The best way to learn something new is to teach others so that is what I follow every time and the new things which are on market is like say Number JS, Object JS, Null JS, the JavaScript stack

Caption: Work with Next Gen tech

That's what excites me and Accenture gives me most – a lot of freedom to implement those things in the project itself, so that's like awesome. When passion meets the career, this is heaven.

Caption: Cooking, Innovation, Web Development

I started learning cooking step by step and I became to an extent a vegetarian chef. Working in Newcastle is one of the best things for me. All of the staff here treat me as their family. Everyone is super helpful during my work times and at times of distress they are the first person to come up, so I love my team. Really the best experience I have had in the UK.
