

Digital Distribution Solution

(Video Transcript)

Every digital innovation needs to connect. Today's digital innovators are connecting people and businesses like never before...connecting to an infinite playlist to the fashion runway to publishing houses. They're creating videos, and printing in 3D.

But one company connects digital assets and intelligent objects to create new experiences. The Accenture Digital Distribution Solution delivers across applications, across industries, across channels, and devices. Create it and Accenture can connect it.

The Accenture Digital Distribution Solution captures, ingests, adapts, manages, and distributes...Anything Digital. Securely and at Scale. Anywhere. Everywhere.

Just ask: Universal Music

Just ask: HarperCollins

Just ask: CuteCircuit

Just ask: Telecom Italia

The Accenture Digital Distribution Solution is connecting people and businesses...by drones, in cars, on smart glasses, across screens big and small. Create it and Accenture can connect it.
