Accenture: Day in the Life of an Intern
Lauren, Management Consulting: Hi everyone, my name is Lauren and I am a rising sophomore from Howard University studying business management. Coming in to Accenture I didn’t exactly know what to expect, being that this is my first internship. But at this point we’re seven weeks in and I’m happy to say that I’ve loved my experience and super excited for you guys to see what a day is like in the life of a typical Accenture intern.

Omel, Technology Consulting: Hi everyone, my name is Omel, I’m from the University of Puerto Rico, I’m a computer information systems major, and I’m back at Accenture for a second internship. My first time went great, I’m loving what I’m doing now and I’d just love to show you around, basically show you what a day in the life of an intern is like.
