Accenture Analytics Recruitment Video

Transcript

High performance. Delivered.
Join us to use your analytics skills and Be Greater Than

Speaker 1: Working for Accenture Digital is actually a pretty exciting opportunity. We have the chance to build something new and different and really use the skills that you’ve been working on.

Speaker 2: We help our clients take an idea like big data and help explain to them what that means. How do we manage data as an asset to do things like predictive modelling, optimization, forecasting…

Speaker 1: This is an area that is rapidly growing if you are committed to applying your skills to help us make sense of that data, then this might be a good place for you.

Speaker 2: We’ve taken this idea of mobility and interactive and analytics and we’ve applied it broadly across all of our clients. You have to be dynamic, you have to be flexible; you have to have passion for driving client value.

Speaker 1: It’s about coming here and developing yourself into the person that we turn to in some emerging area.

Speaker 2: What I love about my job is I work with some of the smartest people. You really can pull from great minds in order to come up with something unique that you can look back on and be very proud of. The future of digital is endless, we’ve just begun with some of the more new age technology enabled solutions, that’s how Accenture helps clients win with analytics.
