

CARGO:

BOOST CARGO REVENUE THROUGH IDENTIFICATION OF YIELD AND VOLUME INITIATIVES AT MAJOR STATIONS

As the leading consulting firm in the transportation industry, Seabury Consulting is fully dedicated to the air, ocean and logistics sector.

Clients value Seabury Consulting's innovative thinking and ability to support implementation. Seabury Consulting's professionals have all held senior management positions within the transportation industry and cargo consultancies and have completed high-profile consulting assignments with airlines, ocean carriers, (air)ports, forwarders, integrators and handling companies. We have the ability to establish a local presence anywhere because of our knowledge of local markets and cultures through assignments with multiple business models and leading clients across the world. With the world's most comprehensive, reliable and up-to-date demand and supply databases, Seabury Consulting is able to provide data on

developments and forecasts in air, express and ocean freight demand and capacity on a subscription basis or as part of consulting projects.

Spearheaded from its Amsterdam office, the Seabury Consulting Cargo team offers the following services:

- **STRATEGY CONSULTING**
- **PERFORMANCE BOOSTING**
- **MARKET INTELLIGENCE**
- **CARGO DATABASES**
