## **Meet Ed**

Ever since I was a kid, I would end up taking apart my grandparents' electronics. At the time it was because I was bored, but that's blossomed into a passion of mine. I've always been interested in flying, I've always been interested in building and those two things come together.

As far as what I do bring to clients is fully functional websites. I just continue to break barriers whether it be through innovation, research, development, it doesn't matter. Whatever it is, it can be done and I know there is a way to get it done.

Be yourself, make a difference.
