Accenture’s Skills to Succeed corporate citizenship initiative advances employment and entrepreneurship opportunities for individuals around the globe, leveraging digital innovation to drive impact at scale.

Since 2010, Skills to Succeed has helped equip more than 1.7 million people around the world with the skills to get a job or build a business.

- We are closing skills gaps today—to immediately help individuals who need to earn a living, as well as employers who need to fill open positions.
- We are preparing the next generation to thrive in tomorrow’s digital economy, helping them build digital and business skills at an earlier age.

POWERS BY OUR PEOPLE

Our people consider giving back to their communities a key part of what makes Accenture a great place to grow careers. Skills to Succeed is powered by our people, who have an impact through participation in programs such as volunteering, mentoring, pro bono projects and supporting hiring opportunities at Accenture.

1.7M+
people equipped with Skills to Succeed toward our goal of 3M+ by 2020

$371M+
invested in corporate citizenship efforts since 2011

77K+
people skilled through our digital learning assets Skills to Succeed Academy and Emplea+

OUR 2020 GOALS

DRIVE SKILLS DEVELOPMENT
Equip more than 3 million people with the skills they need to secure a job or build a business.

ENABLE EMPLOYMENT
Continuously improve how we transition people from skills development into work—with measurable outcomes.

COLLABORATE FOR CHANGE
Partner with organizations to create large-scale, long-term solutions that close global employment gaps.

Pierre Nanterme, Accenture Chairman & CEO (second from right), helps celebrate the launch of the Refugee Talent Hub. Read Pierre’s blog on Talent Hub.
STORIES OF EMPOWERMENT

We are honored to help individuals around the world drive improved economic opportunities for themselves, their families and their communities.

MEET BRUNO – BRAZIL

Bruno dreamed of working in technology but lacked the financial means to afford a training program and supported himself as a coffee machine operator. Through Accenture in the Future, Bruno received technology training and gained job preparation, interviewing and soft skills. After the course, Bruno was hired as a New Associate – Software Engineer with Accenture.

MEET AMARYAH – UNITED STATES

After completing Girls Who Code’s Summer Immersion program, Amaryah added Advanced Placement Computer Science and Calculus to her high school schedule. She now plans to study software or chemical engineering in college, and is hosting a Girls Who Code Club at her school.

COLLABORATING FOR GREATER IMPACT

Collaboration is a critical component of Skills to Succeed. With deep relationships across sectors, Accenture is uniquely positioned to bring together a diverse coalition of organizations to create largescale, lasting solutions for global unemployment. In each region, our local corporate citizenship teams—alongside our partners—tailor skilling programs to help transition people in our target demographics to locally in-demand jobs.

In addition, for many nonprofit organizations, it can be challenging to keep up with the pace of technology change while continuing to address the needs of beneficiaries. As we evolve our own strategies and programs, we bring our nonprofit partners along on this journey.
