

# JOIN US: INNOVATIONS FOR PERSONS WITH DISABILITIES

## VIDEO TRANSCRIPT

### **LISA BERTOLINI, Manager-CIO, Accenture:**

My parents were told that I would not live past 12 years old. This month is 18 years that I'm with Accenture.

### **ARVIND SHANKAR, Global Persons with Disabilities Network Sponsor, Accenture:**

Did you know that one billion people—that's one in seven people in the world—live with some form of disability?

At Accenture, we believe that diversity makes us stronger, smarter and more innovative.

Each person has unique skills, talent and strengths. There should be no barrier to opportunities because of a disability—whether hidden or visible

December third marks the United Nations' twenty-fifth annual celebration of International Day of Persons with Disabilities.

What is "accessibility" all about? How is technology helping people with hearing or sight impairments participate in meetings?

We invite you to celebrate with us on Facebook Live to talk about the importance of creating an inclusive workplace where people of all abilities can thrive.
