To keep pace in a decade of disruption, Japan banking and capital markets respondents to the Accenture 2017 Global Risk Management Study are investing in technology, integration and talent to drive value from their risk functions.

**TOP CHALLENGES IMPACTING RISK FUNCTION EFFECTIVENESS**

Japanese banks and capital markets firms are investing in new technologies to enhance efficiency and improve risk outcomes.

**HOW ARE JAPANESE BANKS AND CAPITAL MARKETS FIRMS RESPONDING?**

1. **Harnessing smart technology**
   - Robotic Process Automation
   - Cloud

2. **Rising to meet coordination challenges**
   - Over the next two years, progress is anticipated:
     - Significant progress in coordination across lines of business
     - Increased velocity, variety and volume of data
     - Shortage of skills in new and emerging technologies
     - Shortage of core risk management talent and skills
     - Increasing demand from multiple regulators in multiple jurisdictions
     - Balancing the responsibilities for controls and compliance with the need for effective customer service

3. **Building new layers of talent**
   - Risk teams in Japanese banks and capital markets firms are investing in skills to exploit new tools, business models and technology—and to address their gaps in capability.

**RAISE YOUR RISK GAME**
