

## Accenture Industry X.0 Video Transcript - Alex

*Narator Use your digital skills to Be Greater Than. Be yourself, make a difference by joining us.*

*Speaker Hi, I'm Alex, the Center of Excellence Lead, and I've been at Accenture for six years. In these six years I've been involved in several projects in the area of the IoT and Smart Products. In the Center of Excellence we develop new projects in the industrial field, where we implement new technologies such as AI, VR, AR, Robotics and many others. What I like most is motorcycling, both riding and watching. I also like to travel, having covered more than 150,000 kilometers around the world. Accenture is the right place for those who want to be part of interesting projects that really make a difference.*
