

Accenture Industry X.0 Video Transcript - Tibi

Narator Use your digital skills to Be Greater Than. Be yourself, make a difference by joining us.

Speaker I'm Tibi., I've been working for Accenture for five years and I'm a programmer, Team Lead, Career Counselor and a wine enthusiast. I work in the field of railway automation, using C++ technology, but besides that, I'm also involved in the Center of Excellence, where I have the opportunity to work on different, innovative projects in the field of Smart Products, Connected Devices and the Internet of Things. What I most appreciate about Accenture is the freedom and flexibility which it offers and the open-minded attitude of my colleagues. But I also like the courses, and tasting wine in the Wine After Work programme. The truth is I'm passionate about wine and I try to share as much as I can from my experience, and that's why I started the wine tasting programme called Wine After Work here at Accenture.
