

# ACCENTURE | COMMUNITY

## VIDEO TRANSCRIPT

I've worked at Accenture for 10 years.

12 years.

Close to 16 years.

Five months now.

This will be my fifth year at Accenture.

The community here is like family.

The people here are loving. They take you in, it doesn't matter how long you've worked here for.

It's a very energetic atmosphere. It's very friendly, very outgoing, very helpful.

I have chronic pain in my right ankle and they've been nothing but supportive.

We organize games and we have things like food trucks.

I've absolutely made some friends at the centre. Honestly, when I come to work, it's never like I'm at work.

It's a very close-knit group and you feel very involved when you are here.

If I had to describe this delivery centre in one word, I would say family.

It's a family atmosphere here, even my sister works here and even my close coworkers are like my family.

That's what I would say, it's more of a family than a delivery centre.
