

JOURNEY TO CLOUD

Optimizing your cloud journey starts with the right partner.

With a full spectrum of enterprise cloud services, Accenture can accelerate your company's digital transformation no matter where you are on your cloud journey.

Experience matters. And Accenture has taken companies across industries and around the world to the cloud.

- Our over 64,000 skilled cloud professionals have delivered more than 20,000 projects.
- We're the number one integrator for AWS, Microsoft Azure, Google, ServiceNow, Salesforce, Workday and Pega.
- With over 75 vertically integrated, industry-focused cloud solutions, the Accenture difference is clear.

The industry agrees. Leading analysts consistently rank Accenture as a leader in cloud services.

For our clients, Accenture's deep experience, industry expertise, ecosystem relationships, and innovative technologies provide game changing value.

We helped transform the operating model for Towergate Insurance with a faster, more reliable IT platform and cloud-based applications to give real-time visibility into the business. Additionally, approximately 2,300 applications were consolidated to just 222.

We helped Mercedes-Benz deploy a new cloud-based infrastructure to support more consistent and valuable user experiences, while simultaneously integrating DevOps tools for applications — deploying the solution to 22 countries in the first year alone.

And we're developing a strategy to accelerate Banco Sabadell's move to an agile, automated IT operating model, drawing on Accenture experts in security, IT and cloud. The new cloud platform and hybrid cloud operating model will help the bank reduce costs and re-focus employees on growth.

Drive superior business performance, operations, and innovation through cloud. Manage your journey...with Accenture.
