**Meet Michael**

## **Meet Michael**

At my high school, I was having a guitar lesson with my teacher and he was talking about how he was opening up a new recording studio, concert venue. I asked him, can I work as an intern over the Summer and he was all for it. I guess a part of me is, I always want to try new things.

A lot of the applications I develop is with data visualization tools, instead of just pie charts and a bunch of numbers. I always dream a new way of looking at the data, finding something that hasn't been done before.

Be yourself, make a difference.
