Competing in the digital world requires more than a supply chain upgrade. Businesses must rethink operating models, organizations and processes to revolutionize the supply chain, making it more digital, smart, customized, rapid, efficient and responsive. The good news is that this is achievable when companies embrace a Supply Chain X.0 strategy.

PIVOTING TO SUPPLY CHAIN X.0

BUILDING NEXT-GENERATION SUPPLY CHAIN CAPABILITIES

Traditional processes are limited within segments of the supply chain. Now, collaborative end-to-end processes must be oriented around customer outcomes and talent skillsets. This is enabled by end-to-end visibility, flexible technology and efficient fulfillment.

SUPPLY CHAIN X.0 STRATEGY

Help businesses get to outcomes faster and build competitive advantage in the digital age by being:

- Rapid
- Scalable
- Intelligent
- Connected

Supply chain executives believe digital capabilities are relevant for the vast majority across all functions:

- 44% Supplier analytics
- 44% Digital supply network
- 43% Interconnected service supply chain
- 42% Inventory analytics, advanced inventory optimization
- 42% Supply chain analytics

FIVE STEPS TOWARD SUPPLY CHAIN X.0

Make the wise pivot to urgently embrace digital technology. By continuously improving the supply chain, the business can achieve new levels of efficiency, agility, customer loyalty and profit.

1. MOVE TOWARD AUTOMATION

2. PIVOT TO A CROSS-FUNCTIONAL OPERATING MODEL

3. TRANSITION TO ANALYTICAL SKILLS

4. BUILD ECOSYSTEM PARTNERSHIPS

5. SOLVE FOR THE INDIVIDUAL
