...but only a few are reaping those rewards today.

There are gains from moving up even one maturity level

US $5.4T

of global profitability has been left on the table due to insufficient operational maturity.

No one-size-fits-all, but there is a path to value

Future-ready organizations take advantage of transformational value—they increase performance in efficiency and profitability, as well as improving innovation, strengthening ecosystems and delivering excellent customer and employee experiences.

What do future-ready organizations do differently? There are three things organizations must know to become future-ready.

01 Know the ultimate goal
Go beyond incremental change. Conceptualize aspirations.

02 Know the key steps
Enhance intuition with high-quality, diverse data. Scale automation and analytics, artificial intelligence (AI) and integrated solutions. Foster a human+machine specialized workforce.

03 Know how to leapfrog maturity levels
Build ecosystem relationships with complementary skill sets and technologies on demand.

Outsmart, outperform, outpace

Now is the time to make a move to intelligent operations. Here’s how:

- Think big and go beyond incremental change
- Enhance intuition with the highest-quality, diverse data
- Scale automation and analytics, AI and integrated solutions with leading practices
- Foster a human+machine, specialized workforce
- Put a cloud infrastructure at the heart
- Build complementary third-party and ecosystem relationships
